Issue #16389:

"Size" ignored if placed before fontproperties
Branch with fix: https://github.com/RiazCharania/matplotlib/tree/issue_16389

System testing:

Check status at: https://travis-ci.com/github/RiazCharania/matplotlib/branches

For this phase, all the system tests pass. The build is successful.

Acceptance testing:

1. If you haven't already, follow the instructions in the Deliverable 2 README
2. cd to directory dir
3. Checkout and build branch issue_16389 by running
   a. cd matplotlib
   b. git checkout issue_16389
   c. python setup.py build
   d. cd ..
4. Install test file to dir
   a. Download Issue_16389_Acceptance.py
5. Run the test file
   a. python Issue_16389_Acceptance.py
6. Verify the following (Figures provided on page 2):
   a. Figure Larger has x & y labels of a larger font size then in figure Default, as a means of showing that "Size" is no longer ignored if placed before "fontproperties"
   b. The font stylings of the x & y labels are different from the ones in figure Default, as a way of showing that "fontproperties" is still set correctly
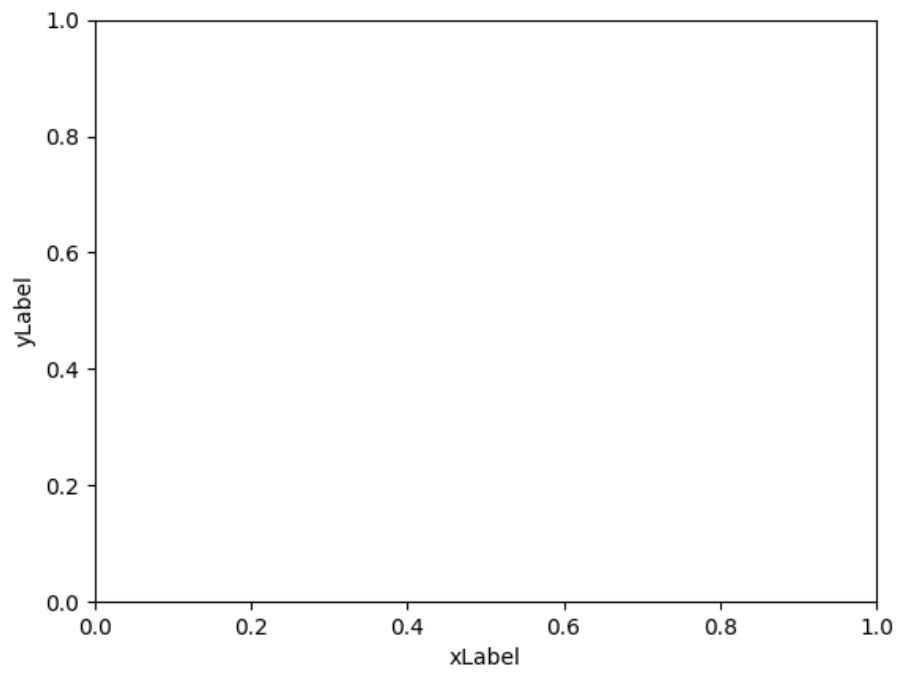

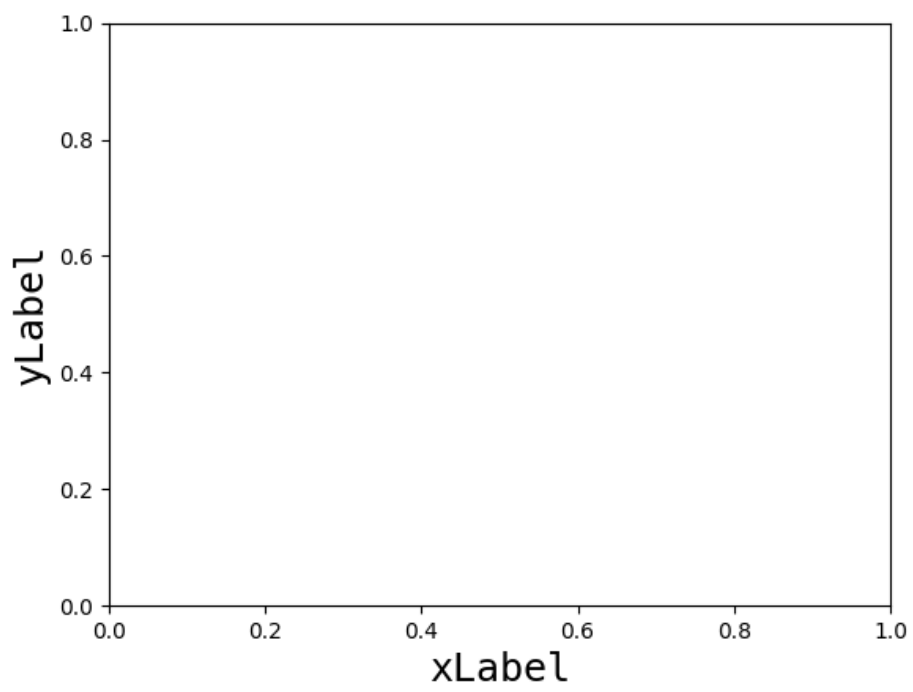

Figure Default
